

We save lives...we are GEOS™

Worldwide Emergency Response Coordination with your Inmarsat Isatphone 2

CRITICALLY IMPORTANT INFORMATION

Your new Inmarsat IsatPhone 2 has a dedicated button which can be configured to obtain the Emergency Response Coordination Service provided by GEOS Worldwide Limited (GEOS).

If you wish to receive this service or any other GEOS services, you will need to register with GEOS and make sure to configure your IsatPhone 2. To do this, register online and agree to the GEOS terms and conditions at:

www.geosalliance.com/inmarsat

GEOS Emergency Response Coordination Services comes at no charge for IsatPhone 2 postpaid users *. Other GEOS services are also available from GEOS for an additional fee.

** Prepaid subscribers can also register with GEOS for Emergency Response Coordination services but will be charged by GEOS at the applicable annual fee.*

You may want to configure your new IsatPhone 2 to have access to the Emergency Response Coordination services of GEOS, at no additional charge for postpaid users*. To enable this GEOS service, you must first visit our web site and complete your registration at:

www.geosalliance.com/inmarsat

Programming your Inmarsat IsatPhone 2

After registration, you will need to program your Inmarsat IsatPhone 2's assistance mode settings to direct alert messages to GEOS. Instructions will be provided by GEOS at the completion of registration. Standard airtime charges will apply for assistance messages to GEOS.

The IERCC – worldwide help when and wherever you need it

At the heart of the safety and security services provided for you at no additional cost to your Inmarsat subscription, is the GEOS International Emergency Response Coordination Center (IERCC) in Houston, Texas (USA). The mission of the GEOS IERCC is simple, to aid in the rescue of all savable lives whether it is land, air or sea, anywhere in the world. The IERCC is an alerting post that is responsible for receiving the alert and notifying the appropriate authorities to prosecute the SAR mission. The SAR Mission Coordinators at the IERCC also maintain a liaison with the family, first responders and in some instances a user's embassy, keeping all parties up to date with new position information, updated medical information and any other pertinent data until the mission or call is resolved.

The IERCC is staffed 24x7 365 days per year with Watch Standers, SAR Mission Coordinators and Duty Officers trained in COSPAS-SARSAT technology and terminology, International Aviation and Maritime Search and Rescue (IAMSAR), Meteorology Basics, map reading, coordinate translation, basic foreign language skills and watch standing. GEOS' IERCC has translation capabilities for 242 languages and dialects and has assisted in coordinating thousands of responses in over 130 countries since its inception in 2007.

** Prepaid subscribers can also register with GEOS for Emergency Response Coordination services but will be charged by GEOS at the applicable annual fee.*

In addition to the peace of mind delivered through the Emergency Response service, GEOS is pleased to offer additional Membership Benefits to enhance your safety and security worldwide.

Search and Rescue (SAR) Membership Benefits

Up to \$100,000 (US) per annum for additional Search & Rescue costs (including helicopter rescue) for any emergency service expenses incurred. Provision of all services is underwritten by Lloyd's of London. Terms and Conditions apply. To enroll, at only \$17.95 per year, visit our site at:

www.geosalliance.com/sar

GEOS MEDIVAC Plus™

Global medical evacuation benefits of up to \$1,000,000 (one million dollars US). Wherever you are in the World, if you're in trouble, we will get you to a hospital near your home – fast! Terms and Conditions apply. To enroll, visit our site at:

www.geosalliance.com/medivacplus

The GEOS IERCC – arranges worldwide help when and wherever you need it!

The mission at GEOS is to provide solutions and services that truly save lives and provide a safer environment for all registered clients. These offerings are supported by our International Emergency Response Coordination Center (IERCC) which is based in a secure facility just North of Houston, TX. Terms and Conditions apply.
