

Create your Talkgroup

- 1) Find your starting point
- 2) Draw your Talkgroup
- 3) Save your changes

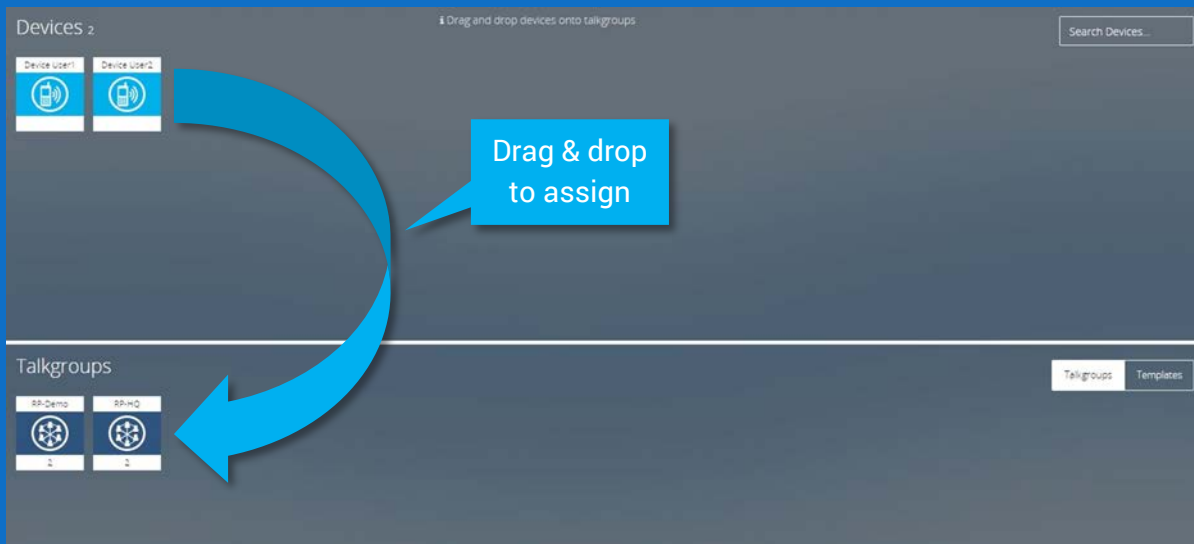

Keep an eye on your total Talkgroup size!

Region Name:

Talkgroup Area: 99,087 / 100,000 km²

Assign your devices to a Talkgroup

Assigning devices to your Talkgroups is as easy as dragging your device on to the Talkgroups you want it assigned to.

Use the same settings for multiple devices? Consider making a Template, then you can make one Template and drag that on to multiple devices instead of assigning devices to each Talkgroup individually.
