Changing the Language of the GeoPro Mobile App

Gabor Jozsa - 2020-11-05 - in [GeoPro Mobile App for iOS](#)

Mobile App Users are able to change the language of the GeoPro App's user interface through the App's Settings menu. Currently the following languages are supported: English, French, Spanish, Portuguese, German, Italian, Russian, and Turkish.

Note: Depending on the User's mobile device the app may automatically reflect their language preference, however language choice can also be changed from the app at any time.

To change the GeoPro Mobile App language setting:

1. Open the GeoPro Mobile App on the mobile device.
2. Tap on **Settings**.

Hello, Bob Smith
