Iridium Direct Internet Update

David Jones - 2016-09-30 - in Iridium

All existing users of Direct Internet must upgrade to the latest version of Direct Internet by Riverbed Steelhead Mobile in order to continue service. Existing copies of Direct Internet MUST be uninstalled before proceeding with the instructions below.

Important note: Direct Internet is compatible with Windows 7, Windows 8/8.1, and Mac OSX. Windows 10 is currently not supported. Iridium is working with Microsoft to resolve this issue.

To complete the installation you will need to download the manuals and software below:

Direct Internet Installation Guide for WINDOWS and MAC OSX: [DOWNLOAD](#)

Direct Internet User Manual for WINDOWS: [DOWNLOAD](#)

Direct Internet User Manual for MAC OSX: [DOWNLOAD](#)

Direct Internet Software for WINDOWS: [DOWNLOAD](#)

Direct Internet Software for MAC OS: [DOWNLOAD](#)
