## Iridium Extreme Firmware Update Version HL19004

David Jones - 2020-05-28 - in How-To

This update file contains the following benefits for the Iridium 9575 phone:

- Improved network connectivity
- Fixed an issue preventing display of predictive help content
- Corrected an issue preventing display of firmware version in French
- Updated Iridium branding content in Upgrade Tool

[Please click here for the firmware file and installation instructions.](#)

**Note: The firmware update utility is not compatible with Mac OSX.**
