

## Sending a Text Message to a Device from the List View tab [GPv3]

Lu Parente - 2021-06-19 - in How-To

The **List View** tab provides Administrators and Monitors with the ability to view the most recent interactions from each of the devices provisioned to your account as well as the ability to review device details, user details and perform specific actions on behalf of the device user.

This article explains how to send a **text message** to a device.

1. To send a text message to a device using the List View, select the desired device from the list.
