## Iridium GO!® App Android App v1.6.10 Update Available

2020-04-13 - David Jones - in Announcements

An update is now available for the **Iridium GO!® App** for **Android** devices and can be accessed via the [Google Playstore App](#) version 1.6.10 , has the following updates:

- Allows Texts to 2888
- Fixes the issue where special characters in the synced contacts were replaced with a 'dot', it now removes all special characters except 'plus' +
- Minor User Interface Updates Through the App
- Overall Performance Improvement

While this release is not mandatory, it is strongly recommended that the update be performed as soon as possible to enable the best service experience.
