Iridium Service Advisory

2016-07-25 - David Jones - in Announcements

EDIT: Iridium has advised Roadpost that the issue has been resolved. If you continue to experience this issue please contact Roadpost technical support.

Roadpost is aware that some Iridium satellite phone subscribers are unable to place calls to landline or cellphones that are located in the 705 area code.

If you are experiencing this issue please contact support@roadpost.com and provide the following information:

- Iridium service number
- The number you are trying to call
- The network that the number belongs to

Roadpost will update this post when the issue has been resolved.

Thank you!
