

## Update to the Iridium Extreme & Iridium 9555 Complete Kit

2019-07-17 - David Jones - in Announcements

Please be aware that starting soon, Iridium Extreme and Iridium 9555 handset kits shipped will include a new auto-charger with part number AUTE1801. The change in part number is for Iridium to account for a change in auto-charger supplier/manufacturer and there is no price change or change in functionality/operation of the auto charger in any way. Please [click here](#) for a picture of the new auto-charger. As well, the Iridium Extreme handset kits will no longer include the Manual, CD, or the PC international plug adapter, and are shipped this way from Iridium. There is no price change as a result of this change.
